

As its name suggests, this 4-bedroom, 2-bathroom home is built to follow the sun. The double internal access garage opens into an open plan family and dining room, which looks across to a large kitchen. All bedrooms run down the wall opposite the lounge. The large master bedroom has his and hers wardrobes and an additional walk in wardrobe with a generous ensuite. Bedrooms one, two and three are approximately the same size -- perfect if you have competitive offspring -- and are serviced by their own bathroom and additional toilet.

Floor Area: 233m²
